

Over The Pass

Bonny Light Horseman

The hill became a mountain
And the fog became snow
The road was black as pitch
Coyotes in the ditch
And we wondered if we'd ever make it home

Ice in your veins
Through the wind and the rain
Hold on till at last
We're over the pass

And the thicket it got thicker
And the day became night
Like Jonah settin' sail
From the belly of the whale
We wondered if there was an end in sight

Wild horses that run
But they don't know what from
Hold on till at last
We're over the pass
Ice in your veins
Through the wind and the rain
Hold on till at last
We're over the pass

Time was moving slowly
Like some old movie scene
In a broken down canoe
With the ocean in view
We wondered if it all had been a dream

Finally, at last! We're over the pass
Glory! At last! We're over the pass
Finally, at last! We're over the pass
Glory! At last! We're over the pass
Glory! At last! We're over the pass
Glory! At last! We're over the pass
