

## Transits

Bonobo

You'll never know  
Only my soul  
Bares the truth  
Cares for you  
Only my soul  
And you'll never see  
Stays here with me  
Overload, nothing more  
Only my soul

Knew you were ready  
Because you had no answers for me

Take me back to where love grows  
Because I don't want to be here anymore

Take me back to where love grows  
I don't want to be here anymore
