

Calm Symphony

Boo Seeka

Well I got a hold on ya
Think you can confirmed it but you just won't tell
Deep in your eyes light up
Colors of your heavens and the colors of hell
Gold for you is the only words you can't touch
I'll need soldiers to disaffirm me

A calm symphony is where I lie
Is where I lie
Is where I lie
A calm symphony is where I lie
Is where I lie

I got a hold on ya
You think you can mime it and we all can't tell
Open your eyes right up
And find the other heavens or the other ones fell
Spare me that the world is too tough
And dig all the gold that you hold for free

A calm symphony is where I lie
Is where I lie
Is where I lie
A calm symphony is where I lie
Is where I lie

One moment, one rhythm, one focus at you and I will always hold
One meaning, one feeling, one season that you and I will always
know
Another day will come and another reason we will try
There's only the gold

Only the gold in our dreams is where I lie
Is where I lie
Only the gold in our dreams is where I lie
Is where I lie
Only the gold, in our dreams is where I lie
Deep in your eyes light up
Only the gold in our dreams is where I lie
Is where I lie
Only the gold, in our dreams is where I lie
