

## Come With Me

Boo Seeka

I get lost in the meaning  
I am lost in your feeling  
You give something to believe in  
Nothing else I want to see in  
Yeah I need somebody

You're all that I want  
All that I want  
All that I want all that I want  
Come with me  
Come with me

You're all I believe in  
You raise me up to the ceiling  
Make me Berger than I'm being  
I get lost in your meaning  
Yeah I need somebody

You're all that I want  
All that I want  
All that I want all that I want  
Come with me  
Come with me

Make my day  
Hear my name calling  
Yeah I need somebody

You're all that I want  
All that I want  
All that I want all that I want  
Come with me  
Come with me

Yeah You're all that I want  
All that I want  
Let's get lost  
Come and get lost with me  
With me
