

Deception Bay

Boo Seeka

Floating around in deception bay
Hold me down
Hold me down
As I get closer I'll just drift away
Further now
Further now

Too many winning here
The past looks to my fear
Cause everything I'm hearing sounds too good to be true
Another one is approaching near
The words are warmer, getting clear
I'll stand aside and probably let this one through

Floating around in deception bay
Hold me down
Hold me down
As I get closer I'll just drift away
Further now
Further now

If for a moment I disappear
Fade into the light like a pioneer
Spinning on the ground like a merry-go-round, I'll try to undo
The dark water on the visible sea
Where the mind and the matter just didn't agree
In for a penny I'm in for a pound, what will be will be

Floating around in deception bay
Hold me down
Hold me down
As I get closer I'll just drift away
Further now
Further now

I'll light a fire and burn it slow
Let the light last longer
Memories make love
I'll light a fire and burn it slow
Let the light last longer
And I'm floating down
I'm floating down
I'm floating down
Yes I'm floating down

Floating around in deception bay
Hold me down
Hold me down
As I get closer I'll just drift away
Further now
Further now
