

# From The Beginning

Boo Seeka

(I don't want to leave here  
The purist fear you know)

Come be alive and be living  
No more time to be slipping  
Tell your mind that you've had enough  
Stand here for something  
Create a vibe that you're missing  
No more time to be tripping  
Find your diamond in the rough  
Shine bright for something

If you want it  
You own it  
If you want it  
You could have it all  
If you want it  
You own it  
If you want it  
You could have it all

If we try from the beginning  
New time new rhyme we'll be singing  
I'll be here when you add it up  
When your diamond's shining  
Make it bright in the world you're holding  
In the light of a place you're growing  
Take your time while you wait for the moment

To shine bright for something

If you want it  
You own it  
If you want it  
You could have it all  
If you want it  
You own it  
If you want it  
You could have it all

If you want it  
You own it  
You could have it all  
If you  
Want it  
You could have it all

We ride we die we try for more than  
Everything I'm holding  
And I am holding on  
We ride we die we try for more than  
Everything I'm holding  
And I am holding on

(The purist fear you know)

If you want it

You own it  
If you want it  
You could have it all  
If you want it  
You own it  
If you want it  
You could have it all  
If you want  
You own it  
You could have it all  
If you own it  
You could have it all
