

Gold Sail

Boo Seeka

I'm hearing all about it
Gold sail for me
Can't go without it
Living underneath
I'll dive into your fountain
Open up for me
Climb a magic mountain
Show me what I need

He got obsessed about mountain
To the attic when I'm moving
Moving with you
I let it up and let's wait for her reaction
When I'm moving
Moving with you

Moving, moving with you
Moving, moving with you

Show me something like you mean it
Show me something like you mean it

Standing in your castle
Not the lock I've seen
Flip me to your channel
Where I've never been
I'll go and light a candle
Gold sail for me
Why can't I handle?
Don't forget to breathe

He got obsessed about mountain
To the attic when I'm moving

Moving with you
I let it up and let's wait for her reaction
When I'm moving
Moving with you

Show me something like you mean it
Show me something like you mean it
Show me something like you mean it
Show me something like you mean it

Bring on the light
I'm heading home
I'm falling in
Passing living boy
Young neon light
Oh, where to begin?
Bring on the light
I'm heading home
I'm falling in
Pass living boy
Young neon light
Oh, where to begin?

Show me something like you mean it
Show me something like you mean it
Show me something like you mean it
Show me something like you mean it
