

Even though you might be wrong
I think a part of me knows that you're right
That you're right
But silent treatment gone too long
And I can't live with this the rest of my life
My life
Maybe we're rumours
Maybe one of a kind
Maybe we're clueless down the line
Both can be ruthless
When we're magnified
Can we be humans somewhere down the line

Ohhhh
All that we wanted
Is not what we need
Ohhhh
All that we wanted
Is not what we see

'Cause even though I might be wrong
I think a part of me just knows that I tried
That I tried
I've had the feeling far too long
And I can't live with this the rest of my life
Of my life (of my love)

Ohhhh
All that we wanted
Is not what we need
Ohhhh
All that we wanted
Is not what we see

'Cause I've been caught up in the sides
I've been caught up in the sides

Maybe we're rumours
Maybe one of a kind
Maybe we're clueless down the line
Both can be ruthless
When we're magnified
Can we be humans somewhere down the line

Can we be human?
Can we be human?
Can we be human?
