

Moonlight Run

Boo Seeka

It's early, I'm 'bout to find out
Which way you're here
Spin me around one more time
Spin me around one more time

Moonlight run, come ride with me
Where do we go and, find the others
It feels so right, you next to me
One way roads where, we discover

The moonlight run, come ride with me
When do we go, through the thunder
Into the night, over the sea
Don't really know, still I wonder

It's early, I'm 'bout to find out
Which way you're here
Spin me around one more time
Spin me around one more time
It's early, I'm 'bout to find out
Which way you're here
Spin me around one more time
Spin me around one more time

Moonlight run, take over me
When do you know to, find the others
It feels so right, just you and me
The one way goal where, we discover

The moonlight run, come ride with me
When do we go, through the thunder
Into the night, over the sea
Don't really know, still I wonder

It's early, I'm 'bout to find out
Which way you're here
Spin me around one more time
Spin me around one more time
It's early, I'm 'bout to find out
Which way you're here
Spin me around one more time
Spin me around one more time

The moonlight run, come ride with me
Spin me around one more time
The moonlight run, come ride with me
Spin me around one more time

[?] the greatest feeling
Spin me around one more time
[?] the greatest feeling
