

# Never Enough

Boo Seeka

It's never enough  
'Cause I've been waiting here for too long  
Through the moonlight I can see  
Unless I think I'm dreaming (It's never enough...)  
It's never enough  
'Cause I've been laying here for too long  
After midnight I can't breathe  
Everything has me believing  
I am already in love

The way we go we go back to being  
Everything I know we're feeling  
I just want to fly  
Can I take you along for the ride?  
Take you along for the ride  
We go, go, go back to feeling  
Oh, I love the things I know you're seeing  
I just want to fly  
Can I go back, go back, go back

It's never enough  
'Cause I've been waiting here for too long?  
Close my eyes so I can see  
Everything has me believing (It's never enough...)  
It's never enough  
'Cause I've been waiting, I've been waiting  
In the moonlight I can't breathe  
Everything has me believing

The way we go we go back to being  
Everything I know we're feeling  
I just want to fly  
Can I take you along for the ride?  
Take you along for the ride  
We go, go, go back to feeling  
Oh, I love the things I know you're seeing  
I just want to fly  
Can I go back, go back, go back  
It's never enough

It's never enough (It's never enough...)  
It's never enough (It's never enough...)  
Go back, go back, go back  
It's never enough (It's never enough...)  
Go back, go back, go back  
It's never enough (It's never enough...)  
I am already alone

The way, we go, we go, go back to being  
Everything I know we're feeling  
I just want to fly  
Can I take you along for the ride  
Take you along for the ride  
We go, we go, go back to feeling  
All of the things I know that we're seeing  
I just want to fly  
Can I go back, go back

It's never enough
