

# Superstar

Boo Seeka

Can we make a start?  
'Cause emptiness is not where we go for  
Broken hearts  
I hear the other side always calling  
From afar  
I hear the others forever talking  
Where they are  
They're all superstars

I know better than this  
I know better than this  
Stay away  
Yeah I know better than this  
I know better than this  
Stay away

Forget everything you said  
Get you out of my head  
Yeah I wanna lay low  
Again and again I'm falling  
Fuck everything you said  
Get me out of your head  
Yeah I wanna let go  
But again and again I'm falling

I'm alone again  
I think we're falling  
Fuck everything you said  
Get me out of your head  
Yeah here we go again  
I think we're falling  
Fuck everything you said  
Get me out of your head

I'm here stuck  
I'm here stuck  
Between the head and the heart  
I know that we're here  
I know we're going to make a start  
'Cause emptiness is not where we go for  
Broken hearts  
For broken hearts

I know better than this  
I know better than this  
Stay away  
Yeah I know better than this  
I know better than this  
Stay away

Forget everything you said  
Get you out of my head  
Yeah I wanna lay low  
Again and again I'm falling  
Fuck everything you said  
Get me out of your head  
Yeah I wanna let go

But again and again I'm falling

(Falling, falling)  
Fuck everything you said  
Get me out of your head  
(Falling, falling)  
Fuck everything you said  
Get me out of your head

On and on again  
I think we're falling  
Yeah here we go again  
I think we're falling

Forget everything you said  
Yeah I wanna lay low  
Again and again I'm falling  
Fuck everything you said  
Yeah I wanna let go  
But again and again I'm falling

Fuck everything you said  
Get me out of your head  
Yeah I wanna let go  
But again and again I'm falling

On and on again  
I think we're falling  
Fuck everything you said  
Get me out of your head  
Yeah here we go again  
I think we're falling  
Fuck everything you said  
Fuck everything you said
