Now all type things that went on this evening

They all say they fresh but I'm here now

Who you believin

Who couldn't hear a hit if you hit up

What a pity, you tried to be quick wit the tongue

Your style is dibbie-dibbie

You need no lyrical rush in your mumblin

Whatchu sayin?

I serve you up like stove top stuffing

I'm gonna say this once and I mean this

Disattach yaself from my penis

Give my genitals room to breathe

You take shots at me wit a weak album I can't believe

You got no skills, chill plus your corny

You think your hardcore 'cause you got a 40?

My car is not tint

I don't eat wit a chip

When I read I don't squint

In real life I got the hard shit

You can't out grow me

You don't even know me

I be leavin the jam wit your black ass as a trophy

This is nobodys style but the teacher

So don't compare me to none of these creatures, features

Feature and battle rappers

Krs one is the head clapper
