

Cold As Love

Boogie

Yo Yo

I done found peace sliding with the gang
I done took leaps trying to make a change
I done went deep looking in the pain
I ain't have bleach either for the stains
I done burnt bridges trynna hold a grudge
I done learned how to do it outta love
I done hurt feelings saying what it was
I done seen God when I'm off the drugs
I done went numb being outta touch
I done missed steps being in a rush
How you had faith saying it was luck
How you not break knowing that you crushed
I done had things I ain't get to say
I don't missed dreams being too afraid
Wanna be free
I been in a cage
Knowing it was me that was in the way
I been in my head
Yea yea
I think I'm stalling
I think I feel something...

Tell me why
Feel so safe
Still so shady
Tell me why (why)
Invade my space
But still can't save me
Tell me why
