

## Do 4 Love (Freestyle)

Boogie

Ran outta breath  
Darius (Yeah)  
How you feel about love? (Huh?)  
How you feel about love? (Love is trash)  
It's trash? (Yeah)  
Wow

Yo, see, what I won't do is know your past gone  
And still treat you like the old you  
And try to latch on when I need to let you go soon  
Or let it drag-on if you sayin' you gon' Goku  
'Cause I ain't tryna hold you, no  
But what I will do is help you unlearn things  
So I could then rebuild you  
Or when you in the crossfire, know I could come and shield you  
Or I could be a mirror just so you could know you still you  
But still, you love givin' me your demonstrations  
She said that she don't fuck with BOOGIE, she discriminatin'  
Somebody instigatin'  
Man, I done been around the world, it ain't no sick of places  
Right between the spot of your love and your manipulation  
Put that on my old shit, put that on my momma  
That this shit can be misleading when you blinded through the t  
rauma  
I put that on my old shit, put that on my momma  
That all my sketchiness is withdrawn from all the problems with  
my father  
Shoutout to Jhené and days I think about still, uh  
Sick 'cause I ain't notice we was goin' downhill  
You know hurtin' full of work, you know healin' is a skill  
Beauty in the emptiness is that I still could get refilled  
What I will and what I won't  
Yo, that's what I won't do  
You was my sunroof when rain tried to come through  
She hit a lick off my pain so it's, "Fuck you"  
It's, "Fuck you," it's, oh  
  
Oh, but I will do is, uh
