

Find Me

Boogie

I swear this shit gets so lonely I swear this shit gets so lonely
ly
You've been a flower of my heart from the day them feelings rose on me
The day them feelings rose on me
See you could wrap me up in thorns, you know you still gon' have this hold on me
If good women like good water, why I always got these hoes on me?
Like you was planted in the dark, see I didn't think you was gon' grow on me

I wonder why you so guarded, mission a fire finisher ended before we started
Picture you like a artist, but what I'm drawing to day
Is a better way to your heart without drama up in the way

Lock me out my place and let me fall into your space, oh baby
I'm hoping you find me
No lock for my safe, I let this sit all in your face, oh baby
I'm hoping you find me

I swear this shit get so lonely, swear this shit get so lonely
You've been a flower of my heart, from the day them feelings rose on me
(Til them feelings rose on me)
See you could wrap me up in thorns, you know you still gon' have this hold on me
(Still gon' have this hold on me)
That's crazy, If good women like good water, why I always got these hoes on me?
Like you was planted in the dark, see I didn't think you was gon' grow on me

Same shit that got my bros on me
Telling me I'm trippin', uh, telling me I'm slippin'
I've been on you for a while, we turn these miles into inches
Commitment, I swear it ain't no fiction when I say

Lock me out my place and let me fall into your space, oh baby
I'm hoping you find me
No lock for my safe, I let this sit all in your face, oh baby
I'm hoping you find me

You deserve it Would I be wrong if I don't tell you baby?
Wrong if I don't tell you baby

Oh baby, oh find, oh find, find

Lock me in, take me away
Lock me in, take me away
