

## No Warning

## Boogie

Don't warn me  
I'd rather be surprised  
Don't warn me  
Now I'm prepared to die, sing  
Saved, don't warn me  
Saved, do-do-do-do-do-do  
Saved  
(Yea, yea)  
(Uh)

Hot boxing  
Do you realize my attitude toxic and we need oxygen?  
Do I carry her or let it end, uh  
Am I a barrier or am I a bridge, uh  
You know the scary thing about it is  
Is how I  
Always make excuses when you wanna put time in  
Talkin' bout next week, I feel like I ain't gonna be alive then  
She said she ready to see us die then  
Say you got all the controls, just pull the fire-pin  
Look at you killin' with mad precision  
Her brain got traffic, then I, crash it, then I  
Wonder if you knew how fast you'd driven, uh  
If I turn my back to your bad decisions  
Just don't give me warning just stab me in it  
Askin' can you not

Don't warn me  
I'd rather be surprised  
Don't warn me  
Now I'm prepared to die, sing  
Saved, don't warn me  
Saved, do-do-do-do-do-do  
Saved
