

Skydive

Boogie

Li-li-li-li-life

Sky, uh

They told me don't jump with no plan, mhmhm

Well I'm saying you better be sure, uh

Just be sure, uh

Think I've stumbled on uncharted land, mhmhm

I guess that means war, means war

Life

I heard your commitment can turn to a sickness that I never seen, mmh

And for sure ain't no cure, shit, I hope ain't no cure, uh

If I told you my symptoms was trippin', don't fault my conviction

From tension I felt on my core

If I told you these feelings I'm missing became my addiction

At this point I hope that you pure

Oh we should sky-sky-sky-skydive

I just hope that you, sure

And I pray we secured, oh yeah

Hi-hi-hi-high tides

You can never be sure

I just hope we mean more

We always in different spaces

You take me outta my zone

I, love how this passage ain't safe

Why, I swear I'm sure of the unknown, the unknown

May this storm pass us never

And we re-define gravity and let this fall last forever

Crawl back whenever, all bad this weather, got us rowing

Where we land when we jump to conclusions

Mama called me stupid, she keep telling me

"Boy stop, don't drop, yeah yeah

You're playin' with firechild

Stop, don't drop, yeah yeah

Just wait 'til they die"

But you don't know shit bout this flame

It's lit in the mist of a rain

Of being addicted to pain

That's why I ain't ask to be saved, aye

Oh we should sky-sky-sky-skydive

I just hope that you, sure

And I pray we secured, oh yeah

Hi-hi-hi-high tides

You can never be sure

I just hope we mean more
