## Boogie

Woah, uh, you like my back wood when I got up, yeah yeah  
Like a kickback  
Though that shit crack it ain't shot up, yeah yeah  
You like tacos on a drunk night  
You a club night without a dumb fight  
You like Roscoe's on a next day  
Skipping all the traffic know the best way  
That's why I...

Love you like the Westside fingers out the sunroof  
Won't you let your wings loose, look at all your stress fly  
Can't take what's inside me, even when I'm far away  
Love you like the Westside fingers out the sunroof  
Won't you let your wings loose, look at all your stress fly  
Can't take what's inside me, even when I'm far away  
Love you like the Westside

Went from no piece now I know peace, yeah yeah  
You a good day, you like a hood day with no police, yeah yeah  
Now I'm breaking down all the hate, yeah  
Leave the smoke clouds full of pain, yeah  
Like let it fall and tell Tony Tony Tony that it's cool if it rain here  
Like oh just look at the benefits (look at the benefits)  
Uh, despite knowing night your whole life  
Know it's future is bright as the city we living in  
(Bright like the city we living in)  
I got your attention now it's my intention to take all that tension and shit  
not to mention...

Love you like the Westside fingers out the sunroof  
Won't you let your wings loose, look at how your stress fly  
Can't take what's inside me, even when I'm far away  
Love you like the Westside fingers out the sunroof  
Won't you let your wings loose, look at how your stress fly  
Can't take what's inside me, even when I'm far away

Gotta shoot for your time and I know that you're used to the vibes  
The death of your stress and the birth of your next  
Oh my God what a beautiful crisis  
You know that these girls in LA probably messy as shit so it's cool that you  
're private  
You the sight that I see at my side and its crazy you turn round and still g  
ive me guidance  
That shit so inspiring and I was gon' say...

You should give me a tour  
I feel so safe in the midst of your war  
Claim you and praise you know the city is yours  
Ride on your wave, no I'm really sure, I'm really sure...

Love you like the Westside, fingers out the sunroof  
Won't you let your wings loose, look at how your stress fly  
Can't take what's inside of me, even when I'm far away
