

# Fall

Boombox (Бумбокс)

Took me right from the height  
Where the air is freezing  
Single look in her eyes  
And I'm not breathing  
In the land of not free  
Why should I suffer  
But her higher degree  
Before and after

Who knows why, why  
She's got that strength and grace to grab me out, grab me out  
Who knows why  
She's got that goddamned strength to grab me from the sky

Everyone falls sometimes  
It's not a shame, not a crime  
Neither you know, no, not I  
Why don't we wanna spread the wings and  
Everyone falls sometimes  
It's not a shame, not a crime  
Neither you know, no, not I  
Why don't we wanna spread the wings and  
Fly

Someone save save me tonight  
From cage of beauty  
Falling out of a sky  
It's not my duty, no  
My weak lips whisper low  
The pray of hopeless  
A remedy no one knows  
When queens are topless

Who knows why  
She's got that strength and grace to grab me out, grab me out  
Who knows why  
She's got that goddamned strength to grab me from the sky

Everyone falls sometimes  
It's not a shame, not a crime  
Neither you know, no, not I  
Why don't we wanna spread the wings and  
Everyone falls sometimes  
It's not a shame, not a crime  
Neither you know, no, not I  
Why don't we wanna spread the wings and  
Fly, fly  
Fly...

Everyone falls sometimes  
It's not a shame, not a crime  
Neither you know, no, not I  
Why don't we wanna spread the wings and fly  
Everyone, everyone, everyone falls...
