

Step up step up heads on the floor
Get up get up if you want more
Come on come on girls on the floor
Get up get up if you want more

I'm gonna sick my pit on you
So twisted what you gonna do
Must not know who you messin' with
I'll get the best the best can get

Too hot my beats they ricochet
Ooh la la doing it all day
To nonstop don't you wanna play
Foot stomping that's my remedy

(Uh huh that's right)

On fire let's burn
Let's get higher and burn
I'm on fire let's burn
With desire and burn

Step up step up boys on the floor
Get up get up if you want more
Come on come on break down the door
Get up get up if you want more

I'm gonna drop a bomb on you
There's really nothing you can do
Thought you could get away with it
Must not know who you messin' with

Messin' with, messin' with, who you messin' with
Ooh la la doing it all day
(Uh huh that's right)

Danger danger, danger danger
Step up step up all on the floor
Get up get up if you want more
Come on come on break down the door
Get up get up if you want more
