

# Self Destruction

Boondox

Another thing for me to pray for  
Another tragedy to face  
Don't think that I could say more  
Before another sin will take its place  
I'm begging for a resolution  
And I'm suffocating endlessly  
I look to heaven but it's never gonna sever  
This depression so I'm living with the misery

My mind is clouded and there's a chance of rain  
And my heart is poundin' and I can't ascertain  
How to put the pieces back together  
Just when I think it's getting better  
It'll break and then I feel the same  
Yeah I know the world ain't really on my shoulders  
But heavy is the head that wears the crown  
And I'm the king of self-destruction  
And I believe in next to nothin' so  
I'm never gonna put it down

Self destructive  
My own worst enemy  
Substance abuse  
That knows no remedy  
I won't waste no prayers on you  
You go do what you always do  
Self destructive  
My own worst enemy  
Substance abuse  
That knows no remedy  
I won't waste no prayers on you  
You go do what you always do

Better live your life  
Like there's nothing left  
For you to live for  
Pitfall  
Get back up  
Showing endurance  
That you were built for  
So self destructive  
The world corruptive  
Like bad advice  
Or you can be yourself  
And be the subject of ridicule  
That no one no one likes  
Instead you wanna go out  
And fill the void and any  
Loose angle and just pack with pills  
No one can tell you no  
Or where you need to go  
It's your night and you need to kill  
Days of your time  
When you're way outta line  
People telling us you hating us  
Only real thing over there keeping you alive  
Homies keeping a blind eye

Rehab tell me you tried  
Seems all set it's  
Mostly pathetic  
But somebody over there's  
Keeping you supplied  
But it's not us no  
Somebody had to let it go  
Rather not  
Stand by ya side  
Like the ones you trust  
That watch you die slow

Self destructive  
My own worst enemy  
Substance abuse  
That knows no remedy  
I won't waste no prayers on you  
You go do what you always do  
Self destructive  
My own worst enemy  
Substance abuse  
That knows no remedy  
I won't waste no prayers on you  
You go do what you always do

Self destructive  
My own worst enemy  
I won't waste no prayers on you  
You go do what you always do  
Self destructive  
My own worst enemy  
I won't waste no prayers on you  
You go do what you always do
