

Snake Bite

Boondox

...Volume 2!

Oh!

It's the label that runs beneath the streets

Psychopathic!

We runnin' shit!

Let's go!

You ain't gotta love me, hate me

I'll just sit here pacing, waiting

Patiently and [?]

Guarded from the things you say

Look into my clouded vision

Been devoured by the vision

Nothing works like family love

We headed for one-way collision

It's like we hate ourselves, we always thinkin' nothing works

Tortured by our own illusion

So much shit until it bursts

Every day a brand new reason

Somethin' else to focus treason

Spit on everything [?] kick it while it's down and bleeding

It was devotion, brought us to the point of human bliss

With just an ocean, turned our backs, betrayed with just one diss

You wanna claim you've been reborn and wanna change things

I say your ass has been corrupted by the fuckin' mainstream

(Watch out!) I see you slithering (slithering)

This world is full of slithering snakes

Off with they heads, off-off with they heads

Off-off with they heads, off with they-off with they heads

(Watch out!) I see you slithering (slithering)

This world is full of slithering snakes

Off with they heads, off-off with they heads

Off-off with they heads, off with they-off with they heads

Yeah!

Everyday, I'm contemplating rearranging situations

Other circumstances brought on so much envy and abrasion

I know you're feelin' bitter, colder than the coldest winter

Lookin' at me like I kissed your girl then put my dick up in her

And then you're talkin' to me like you wasn't more dazed

But it don't be takin' long to bring you to your old ways

You wanna give me props and cheer me from the sidelines

But when it's time to help your partner, you can't seem to find time

And I ain't gonna let it get me, if I do, then it'll hit me

All the times I felt the fangs and it would shoot and fuckin' bit me

But I will keep on pushing, cuz I know you'd do the same

Shame that we don't take no more, but that's the price of fuckin' fame

(Watch out!) I see you slithering (slithering)

This world is full of slithering snakes

Off with they heads, off-off with they heads

Off-off with they heads, off with they-off with they heads

(Watch out!) I see you slithering (slithering)

This world is full of slithering snakes

Off with they heads, off-off with they heads

Off-off with they heads, off with they-off with they heads
