

Inner planetary funksmanship

Bootsy Collins

Ahh the name is Bootsy baby, comin' at cha - through - your - ear - hole. Saying thanks for checking out my new CD... yeah it's new for you, and it's new for me... I've taken lots of trips, but none like this, that consists of so many stars throughout the galaxies... Yeah 'Play With Bootsy' is the concept that set my music free, it allows all walks of life to come 'P' with me. People like - Mousse T., George Clinton, Catfish The Clown, Norman Cook, Bernie Worrell, Fred Wesley, Lady Miss Kier, Till Brönner, One, Tweet, Seeed, Pro. Griff and Chuck D, Snoop Doggie Dogg, Rosie Gaines, Sly & Robbie, The Royal Garden, Johnny Douglas, Kelli Ali, Macy Gray and cousin Fat Joe. Yeah these great artists in their own way have made an unforgettable contribution to the funk. Thanks for keepin' the funk alive.

Also, I'd like to thank all my Rubber Fans and Funkateers that stuck by me threw thick and thin... Now I'd like to invite some new listeners to come along and make a friend. What's old is new and what's new gets old, but what really matters is that this funky D.N.A. gets inside your soul. Give it a chance, you will dance... Metabolic imaging to make your mind enhanced, now stop playing with yourself.

Come - Play - With - Me - Uhh - Bootsy Baby!

Oh come all ye faithful, if only you can believe. Now faith is the substance of things hoped for, and the evidence of things not seen. So by keepin' the funk alive and keepin' your dream alive, all things are possible to them that believe... dare to dream; dare to study & work hard to show yourself some approval... You are not what you eat, but it's what's eating you... So let's deal with that, let's face those viruses that are putting a cut on your vibe.

You 've heard the term good vibrations... well it's all in there, you have good vibes. Dare to be different, dare to not be the norm. Step up to your future, then turn on the charm. Yeah, it's hard to face it, and it's hard to be alone, but if you take it step by step you will find your own way home... Use your imagination because that's the highest kite one can fly...

The sky is the limit 'only' if you put a wall behind it... Let's tear the walls down... You can do all things with that inner power that's within you... Dig deep, keep diggin' down deep, you dig, cause funk is it's own reward... We Love! We Funk! We believe in you
