

Shock-It-To-Me

Bootsy Collins

Alright!

In less than two years over sixty million believers have gived up the funk

Shock-it-to-me

Shock-it-to-me

Electrokuties, elektrokuting

Now I won't keep you hangin' on

If you dance to my music

And sing along

Now pass your partner round n' round

It's time to get up for the hoe-down sound

Hey elektrokuties won't you come out to play

Come out to play, come out to play

Hey elektrokuties won't you come out to play

But don't make me lose my cool

Elektrokuties, elektrokuting

Shock-it-to-me

Electrokuties, elektrokuting

Shock-it-to-me

That girl she was so fine

Her beauty could become a crime

Yeah, oooh

Grabe your partner

Around the waist

And kiss her in the eyes

And look her in the face

Swing your partner round n'round

It's time to get up for the hoe-down sound

Hey elektrokuties won't you come out to play

Come out to play, come out to play

Hey electrokuties won't you come out to play

But don't make me lose my cool

Girl, you make me shout

And now you wanna lock me out

I love the way you shake that mouth

So dance to the music

We're gonna turn this muther out

Shock-it-to-me

Shock-it-to-me

I wanna wave my flag and say

Hi

I'm from the U.S.

Of A.

Yeah, that's what I'm talkin' about

And to all you bill collectors

Yo, have a nice a day

Send me some candies

So I can lick the wrapper baby, yeah

Hey electrokuties won't you come out to play

Come out to play, come out to play

Hey electrokuties won't you come out to play

But don't make me lose my cool

Electrokuties, electrokuting

That girl got plenty of mouth

Now you wanna knock me out

And when she started to pout

Never look over your shoulder

If you feel a doubt

You gonna have to be strong

And leave all your troubles at home

I love you when you shake that mouth

Because dance to the music

We're gonna turn this muther out

Yeah...

Electrocuties, elektrocuting

(My electrocutie never let you baby)

Hey electrocuties won't you come out to play

Come out to play, come out to play

Hey electrocuties won't you come out to play

But don't make me lose my cool
