

## Never Again

Booze & Glory

They try to bring us down and take over our towns,  
can't you see them crawling out?  
They think they're great, their thoughts are full of hate.  
All they do is scream and shout.

Take down your flag and open your mind,  
It's never too late to change and stop being blind.  
Just show some respect and you'll get back the same,  
we won't let you rule the streets never again.

They try to bring us down and take over our towns,  
we always go against the tide.  
Our patience is wearing thin,  
it's not color of your skin that makes it wrong or right.

Take down your flag and open your mind,  
It's never too late to change and stop being blind.  
Just show some respect and you'll get back the same,  
we won't let you rule the streets never again.  
Never again.

Take down your flag and open your mind,  
It's never too late to change and stop being blind.  
Just show some respect and you'll get back the same,  
we won't let you rule the streets never again.

Never again.  
Never again.  
Never again.
