

# Only Fools Get Caught

Booze & Glory

I heard he's doing alright now hard time inside tho  
But he's learnt his lesson now  
But I'll believe when I see it coz I know it ain't that easy  
Just to turn your back on it all  
If all you ever knew from the day that you were born  
Was to cheat, lie, fight and steal  
Well your never gonna break it if you can't earn it take it  
Well life don't work that way

Coz some people never change  
Some people fade away  
Some people break the rules  
But only fools get caught

He was never gonna go clean, dragged up in the East End  
What kind a start in life is that  
He never did go well at school, in an out of borstal  
But he learnt what he had to know  
Coz if all you ever do from the day that you leave school  
Is work hard and live the honest life  
Well you'll never get no thanks coz we're all on the blag  
And life just works that way

He' sitting at the bar now with some spanish tart  
Soaking up the sun in Marbella  
Coz he done a ronny biggs and he fucked off out of here  
But he ain't never coming back again  
So if all you ever do is follow the rules  
You're never gonna get nowhere  
So do as you please and take what you need  
And make life work your way
