

# Payday

Booze & Glory

When you feel like a piece of shit in this world full of crap  
And people full of ignorance keep asking for a slap  
You feel like you've just had enough, don't listen to what they  
say

Don't think about it - raise a glass - Tomorrow's a special day

It's payday, we're going down the pub  
Stay there until the morning light  
It's payday, this night belongs to us  
We'll drink until we're drunk

The boss at work drives you mad and your team lost again  
When every cunt picks on you and drives you insane  
You know this world will never change, you try to find the way  
But there's one important thing - Tomorrow's a special day

It's payday, we're going down the pub  
Stay there until the morning light  
It's payday, this night belongs to us  
We'll drink until we're drunk

It's payday, we're going down the pub  
Stay there until the morning light  
It's payday, this night belongs to us  
We'll drink until we're drunk  
[x2]
