

Aurora Borealis

Borealis

1.

The Light in the dark sky
Soon will come the wolf and die
The howling to the stars
Make the wonder and Cruelty scars
And the wolf fell to ground
He is glorious and he's proud
And he looked to the sky
And i swear u,u will die

Ref:

You said i will die
and i looked to the sky
and i fellt on the ground
You still hear the sound
You always make the truth
Worst believie the'll come true
They come true

2.

He came back to midgard
To take the revenge from his heart
He sought the unbeliever

Ref:

You said i will die
and i looked to the sky
and i fellt on the ground
You still hear the sound
You always make the truth
Worst believie the'll come true
They come true
