

# Forget the Past

Borealis

Through all the pain  
Through all the tears  
Can you explain  
Why you're still here

Forget the past  
It's time to stand up at last

Fly away so we can say  
Life's better this way  
Times have changed, we're not the same  
Live's better this way

Forget the times  
We were as one  
Your lies and rhymes  
Their time has come
