

## River

Borealis

Will you inspire peace  
Now that we've lost ourselves  
Join us and be free  
Repair the damage of hell

Hold me river  
I'll need you until the end, my saviour  
Catch me river  
I'm alone without you

I can't feel, I can't see  
My heart she bleeds to death  
I try to fight back but  
I can't conquer this world

Rise up, remember me  
I cannot be forgotten  
The storm is coming  
I'm trapped alone in the dark

My mind goes numb  
These walls come in on me
