

# Take You Over

Borealis

How can I forget  
If you cannot forgive  
The past, ever haunting  
I've nothing good to give

Fear overcomes you  
Driving you insane  
Feel it take you over  
Feel the warming pain

When I close my eyes  
I see you night and day  
I dream of my revenge  
You took and now I'll take

With left inside  
You tremble in this...
