Yeah, you make me feel something
Every time I see you baby, come a little closer
Boy, I can't believe you, you make me feel something
Every time I see you baby, come a little closer

Come a little closer, come a little closer
Come a little closer, come a little closer
Come a little...

Yeah, you make me feel something
Every time I see you baby, come a little closer
Boy, I can't believe you, you make me feel something
Every time I see you baby, come a little closer

Come a little closer, come a little closer
Come a little closer, come a little closer
Come a little...
