

Famous

Borgeous

Waking up right next to him
Start to wonder where you've been
Are you in LA?
Did you finally move away?

He's the type I dreamt about
But you're the one I miss right now
Did you sell your car,
One that broke down in the dark?

Oh, oh, I've been chasing that feeling
'Cause with you, oh, it was like

Even though no one knew our names
Baby we were famous
Felt like we were famous
Only had one room and cheap champagne
But baby we were famous
Felt like we were, like we were famous

Like we were, like we were famous
Like we were, like we were famous
Like we were, like we were famous
Like we were, like we were famous

Stayed up till the sun that night
No blaming and no big fight
Did you get that job
That you wanted all along

Oh, oh, I'm still chasing that feeling
'Cause with you it was like

Even though no one knew our names
Baby we were famous
Felt like we were famous
Only had one room and cheap champagne
But baby we were famous
Felt like we were, like we were famous

Like we were, like we were famous
Like we were, like we were famous
Like we were, like we were famous
Like we were, like we were famous

We were kids and people change
But no one else could make me feel the same, uh-uh
We were kids and people change
But no one else could make me feel the same, uh-uh

Even though no one knew our names
Baby we were famous
Felt like we were famous
Only had one room and cheap champagne
But baby we were famous
Felt like we were...
Like we were famous

Like we were, like we were famous
Like we were, like we were famous
Like we were, like we were famous
Like we were, like we were famous
Like we were, like we were famous
