Borgeous

You got too big for this small town  
People say you don't come around  
Guess you got some new friends now, don't ya?  
You coulda called to say goodbye  
Coulda called me your ride or die  
Guess you think you're on cloud nine, don't ya?

You only want what you can't have  
You only want what you can't have, I'm saying  
Now I'm the one that you can't have that's what you want

I see you out in town with your new friends now  
Thinking you're too good for me  
When that life gets old and the nights get cold  
Gonna wish you didn't leave  
I thought I knew ya, knew ya, why'd you go and switch on me?  
When that life gets old and the nights get cold  
Gonna wish you, wish you didn't leave  
Wish you didn't leave, wish you didn't leave

When it's late at night and you're faded  
Don't come calling me baby  
There's no way I'll be waiting for ya  
Used to be a little too foolish  
I'm tying up all my loose ends  
Guess I'm dodging a bullet, oh yeah

You only want what you can't have  
You only want what you can't have, I'm saying  
Now I'm the one that you can't have that's what you want

I see you out in town with your new friends now  
Thinking you're too good for me  
When that life gets old and the nights get cold  
Gonna wish you didn't leave  
I thought I knew ya, knew ya, why'd you go and switch on me?  
When that life gets old and the nights get cold  
Gonna wish you, wish you didn't leave  
Wish you didn't leave, wish you didn't  
Wish you didn't leave

I thought I knew ya, knew ya, why'd you go and switch on me?  
When the life gets old and the nights get cold  
Gonna wish you, wish you didn't leave  
Wish you didn't leave, wish you didn't leave  
Wish you didn't leave, wish you didn't leave

I see you out in town with your new friends now  
Thinking you're too good for me  
When the life gets old and the nights get cold  
Gonna wish you didn't leave  
I thought I knew ya, knew ya, why'd you go and switch on me?  
When the life gets old and the nights get cold  
Gonna wish you, wish you didn't leave
