

# Lightspeed

Borgeous

Lights out if you don't want to be seen  
You're pitch perfect, like a movie on a screen  
The way I see you is a cover magazine  
No more midnight calling, gotta moving on

I've spent a million days, trying to catch you up  
Lost a trillion nights, but it's not enough  
You said that time might heal every broken thoughts  
On my mind, on my mind, hey

I need, something unpredictable  
Light speed, show me what I'm waiting for  
Right here, hoping you'd be at my door  
Light speed, my superpower is your love  
My superpower is your love  
My superpower is your love, oh  
My superpower is your love, oh  
My superpower is your love

Searching every broken place  
Wishing I could see your face  
There is no time left to rest  
For the heartless  
And I'll keep calling out your name  
Till your feelings are the same  
Take me back and let me feel your superpower

I need, something unpredictable  
Light speed, show me what I'm waiting for  
Right here, hoping you'd be at my door  
Light speed, my superpower is your love

I need, something unpredictable  
Light speed, show me what I'm waiting for  
Right here, hoping you'd be at my door  
Light speed, my superpower is your love  
My superpower is your love, oh  
My superpower is your love, oh  
My superpower is your love, oh  
My superpower is your love
