

Make Me Yours

Borgeous

Lose ourselves in the great unknown
One more night, we ain't going home
'Cause when we love, we love to the bone
Can't do this alone

All I need is a little bit of you
And a little bit of me
And we can make history
All I need is a little bit of you
And a little bit of us

So kiss me and make me yours, ooh
So kiss me and make me yours, ooh
Just kiss me and make me yours
Just kiss me and make me yours
Just kiss me and make me
Just kiss me and make me yours, ooh
Just kiss me and make me yours, ooh
Just kiss me and make me yours

Tell me now which way we should go
There's no road that I won't follow
My wild young heart can't leave you alone
I need you to know

All I need is a little bit of you
And a little bit of me
And we can make history
All I need is a little bit of you
And a little bit of us

So kiss me and make me yours, ooh
So kiss me and make me yours, ooh
Just kiss me and make me yours
Just kiss me and make me
Just kiss me and make me yours, ooh
Just kiss me and make me yours, ooh
Just kiss me and make me yours
