

# Miracle

Borgeous

Full moon illuminates the sky  
Dark blue waves break tonight  
The ground is shaking at my feet  
I'm calling out, I'm calling out

I need a miracle to save my life  
I need a miracle to find me tonight  
And I'm calling out, I'm calling out  
In the dead of the night  
I need a miracle to save my life

I need a miracle  
I need a miracle

The warm wind speaks to me sometimes  
It keeps me holding on to light  
(And I'm holding on)  
I follow you until it ends  
I'm calling out, I'm calling out

I need a miracle to save my life  
I need a miracle to find me tonight  
And I'm calling out, I'm calling out  
In the dead of the night  
I need a miracle to save my life

I need a miracle  
I need a miracle
