

Over The Edge

Borgeous

Here we are, it's alright
We're alone, it took a little time
Stars are out, bottle of wine
You and me, fingers intertwined

Do you want to watch black and white movies?
I could wear your jacket as you kiss my cheek
We could steal the fire from [?] heartbeats
Close my eyes, I'll let you lead

Come push me over the edge
I see the way you're moving in
Come take me past my limits
Let's be the light we've always been

Wanna watch...
We could steal the...

Lose it all, it's alright
Don't hold back, just give it a try
We're here right now
Don't waste your breath, gotta live it loud

Do you want to go somewhere hot with me?
I could wear your jacket as you kiss my cheek
We could steal the fire from [?] heartbeats
Close my eyes, I'll let you lead

Come push me over the edge
I see the way you're moving in
Come take me past my limits
Let's be the light we've always been

Wanna watch...
We could steal the...

Come push me over the edge
I see the way you're moving in
Come take me past my limits
Let's be the light we've always been

Wanna watch...
We could steal the...

Wanna watch...
We could steal the...
