

Wake me up  
I've been here before  
Through flames of dust  
See I can't breathe at all

So come what you came for  
What you came for  
Say what you want to say  
And don't be afraid  
Don't be afraid no  
To take what you want to take

All these souls  
How many others have you stole  
How many others have you taken to the dark side  
While I was buried in your blue eyes

And all my souls  
How many others have you stole  
How many others have you taken to the dark side  
While I was clinging on for dear life  
Oh my...

While I was clinging on for dear life

Let me go  
I won't live forever  
And when you're gone  
I can force me back together

So come what you came for  
What you came for  
Say what you want to say  
And don't be afraid  
Don't be afraid no  
To take what you want to take

All these souls  
How many others have you stole  
How many others have you taken to the dark side  
While I was buried in your blue eyes

And all my souls  
How many others have you stole  
How many others have you taken to the dark side  
While I was clinging on for dear life  
Oh my...

While I was clinging on for dear life
