Borgore

I got Versace models rolling blunts on my Versace table
5k on a jacket and I haven't checked the label
Always there with haters but always stay so grateful
I'm really good at making really good girls unfaithful,
I'm running out of checks to check, all my check's lit,
I had to threat more strangers than a wife from Craigslist,
Not sure if its real life or am I lucid dreaming
It's a nightmare to have everything
But say we die with a meaning

I think I need help
Help I think I need
Weed, alcohol, women
Women, alcohol, weed
I tryna fight my demons
I know that I'm the best
Vacation when I die
Thankful that I'm blessed

Gucci models rolling blunts in my Tom Ford Raw
This is one mismatch that you wish you could afford
We're not the same religion but she's screaming "oh Lord"
This is one mismatch that my mom doesn't support
