

Wasting Time

Boris

I've touched down and made a landing
I know what I must do
I know truly where I'm standing
I'm sure that living without you ...
's just wasting time

Time's up and i've got the answer
It's you and there's just one way to go
With you life i will remember
As beautiful and if it's no:
It's wasting time

I'm wasting the days
It's something stronger than pride
I wanna be with you
Can't help it, put it aside
And the days go by
Not having what I
Always dream at night
No you - means a shade of blue
On the things I do
Wasting time

Too long thinking nothing else now
Too many circles through my mind
I'm missing a lot here somehow
So many things are still and blind
I'm wasting time

There is nothing whole, no nothing without you
Wasting Time
