

## Set Your A.M. Dial For White Empowerment

**Born Against**

Rush Limbaugh's on the air again proving they're all guilty until proven...  
When he hits the captive rush hour they'll be laughing right along. Aunt &  
uncle tune the radio in make my cousins in the car listen so so meday they'll  
be able to distinguish white from wrong. As they scramble, ramble...  
Scrambling from the cities too, Newark Detroit L.A. as a cue to the gun permit  
suburbs swelling on the edge of any town. And on the radio callers have a  
catch in their throats, maybe some tiny hint of some growing alarm as they  
scramble, scramble, ramble... House to house drag brown faces into the shit.  
And on the radio white folks call up to joke so fed up with this liberal  
government, set your am dial for white empowerment.
