

Relentless

Born from Pain

This war is relentless.
This war is relentless.
This war is relentless.
Relentless is my will

This war is relentless.
This war is relentless.
This war is relentless.
Relentless is my will

This war is relentless.
This war is relentless.
This war is relentless.
Relentless is my will

To the bottom we're pushed. From the bottom we rise
Blood spilled for nothing but lies
Ruthless in the will to take
Leading the blind to a blinder fate.
Make no mistake, we know your game
War so relentless to crush the weak
To crush our faith, to crush the bond
We fight this war up from the ground

To the bottom we're pushed. From the bottom we rise
Blood spilled for nothing but lies
Ruthless in the will to take
Leading the blind to a blinder fate.
Make no mistake, we know your game
War so relentless to crush the weak
To crush our faith, to crush the bond
We fight this war up from the ground

This war is relentless.
This war is relentless.
This war is relentless.
Relentless is my will

This war is relentless.
This war is relentless.
This war is relentless.
Relentless is my will
