

# Decimate Everything

**Born Gold**

Break your records  
Burn your clothes  
We will not grow old if we decimate everything

Shave your haircut  
Smash your glasses  
We will not grow old if this cold feeling passes

No matter what you do  
Everybody's watching you  
No matter where you go  
The night is not enough

No matter where you move  
Everybody's watching you  
No matter where you go  
The night is not enough

Break your records  
Burn your clothes  
We will not grow old if we decimate everything

Shave your haircut  
Smash your glasses  
We will not grow old if this cold feeling passes
