Here we all feel alive Here we use our minds Let us form together Use our minds Create, redesign Here forever

With a new world in our hands, we will gain control With a new world in our hands, we will gain control

Recognize that you will never feel this way again (again) And what you want is right in front of your eyes (this is the life)

So take it in, and embrace

No more wasted faith, 'cause we are wrong ('cause we are wrong)

Don't let it be easy You needed such a direction to visualize perfection Visualize perfection

You are wrong, you are free This is serenity

Stop holding on for nothing I'm ready to face this world and gain control

With a new world in our hands With a new world in our hands With a new world in our hands Gain control

No more wasted faith, 'cause we are wrong We are at ease with the way we've grown And only when the timing's right We can start to feel the stars align

Don't let it be easy Visualize perfection Stop holding for nothing Visualize perfection
