

Never Age

Born Ruffians

You feel the wind never at your back
Your own ways, swimmin upstream
Things are exactly bad as they seem

Stay meek
Never age
Stay unique
Never change
Stay the same

Dreams don't sedate you
Friends won't fake concern
Take off your mask
Put your face to the flames
Feel the burn

Stay meek (If you leave first, I will follow)
Never age (What you feed to me, I will swallow)
Stay unique (If we could love each other, never get old)
Never change (Keep life on hold)
Stay the same (When you leave me, I will follow)
Never age (What you feed to me, I will swallow)
Never change (If we could love each other, never get old)
Stay the same (Keep life on hold)
