

## To Be Seen

Born Ruffians

Get out of bed  
You're weak, you're lazy, you deserve what you get  
Be nicer to yourself, they said  
Be nicer to yourself, they said

Hear the rumble of the fight  
To be humble, to be right  
But every hard day slips away in the night, yeah  
Every hard day slips away in the night

I've been living in my head  
Not much empty space's left  
A light on in my window  
Hoping, quietly  
To be seen  
To be seen

Get out of my head  
You're mean, you're crazy, you deserve what you get  
Be nicer to yourself, they said  
Be nicer to yourself, they said

Little baby in a basket  
You blink, and then you're laid in a casket  
Find the light of love and bask in it  
Find the light of love and bask in it

I've been living in my head  
Not much empty space's left  
A light on in my window  
Hoping, quietly  
To be seen  
To be seen

You're in it now  
Look around  
You're in it now  
Ooh, look around

I've been living in my head  
Not much empty space's left  
A light on in my window  
Hoping, quietly  
To be seen  
To be seen
