Wavy Haze

Born Ruffians

Wasn't complicated
Hadn't sunken in yet
Still had juice to squeeze out of the notes

If it dropped you'd pick it up
Let it bleed don't stitch it up
Boys like you know how to be alone

It's a broken ritual
Agitated habitual
You bet you got the balls to disagree

Separated layout
Hiding from the fade out
Girls like you know how to wait and see

Wasn't what it seems
Wasn't what it seems
In a wavy haze
In a wavy haze

Wonder what you see
Wonder what you see
In a hazy wave
In a hazy wave

If it broke don't fix it up
Lie down there and lick it up
Haven't got a problem with that

Missed the stuff you did not need
Attention, headaches, nicotine
Alcohol and some amphetamines

Was it all the way it seems
How I wonder what you say
In a wavy haze
In a wavy haze

Was it all the way it seems
How I wonder what you say
In a hazy wave
In a hazy wave
Well they're crazy days indeed

Microwave a hungry man
Barbasol and 50 cans
Acne-prone anxiety attacks

Well you see a light come shining
From behind reminding you
That kid is always on your back

Was it all the way it seems
How I wonder what you say
In a wavy haze
In a wavy haze

Was it all the way it seems
Now I wonder what you say
In a hazy wave
In a hazy wave

Wasn't what it seems
Wasn't what it seems
In a wavy haze
In a wavy haze

Wonder what you see
Wonder what you see
In a hazy wave
In a hazy wave
Well they were crazy days indeed
