

# With Her Shadow

Born Ruffians

Silhouette, oh silhouette, oh  
Thinking of your shadow  
Sail away, oh, sail away, go

Silhouette, oh, silhouette, oh  
Thinking of her shadow  
Sail away, oh, sail away, go

She like to keep the sun behind her  
Spring days running wild  
Keep her head down as she's walking  
Silhouette, see her wet hair flying  
Cause she always liked her shadow  
More than her reflection  
It's a better understanding

Silhouette, silhouette  
Thinking of her shadow makes me sweat  
Cause she always liked her shadow  
More than her reflection  
It's a better understanding  
Of her place in the world  
She's leaving our world behind  
For the one that's in her mind, with her shadow

She like to keep the sun behind her  
Spring days running wild  
Keep her head down as she's walking  
Silhouette, see her wet hair flying  
Cause she always liked her shadow  
More than her reflection  
It's a better understanding

She's written off all the lies  
That were taught, but she fought even as a child  
See, most people don't know what it's like  
But, but she sure does

Spring days she's running wild  
Keep her head down, silhouette, wet hair flying  
See, real people don't belong inside  
And she needs the sun  
Cause she always liked her shadow  
More than her reflection  
It's a better understanding  
Of her place in the world  
She's leaving our world behind  
For the one that's in her mind, with her shadow

Silhouette, or sail away, oh  
Thinking of her shadow  
Silhouette, or sail away, go

She's written off all the lies  
That were taught, but she fought even as a child  
See, real people don't belong inside  
And she needs the sun

Cause she always liked her shadow  
More than her reflection  
It's a better understanding  
Of her place in the world

She always liked her shadow  
More than her reflection  
It's a better understanding  
Of her place in the world

Sail away, oh sail away
