

Working Together

Born Ruffians

Break time, come and gone
I feel a trumpet, a swan
Did the world forget you?
Now you would be one or two
Hey, well I can see you sometimes
If I squint with my mind
Oh, it just wasn't your time
No, it just wasn't your time

Time broke, slipped and was gone (Yeah)
Then I realized far beyond (Whoa)
As far as I can tell now
It's a magician's spell (Oh, say)

We're working together
Love comes to whoever wants it
All good things are free
Wave to nobody, yeah

Strangers see through the door
Strangers be what you ignore
Strangers feel something more
Something more

(Yeah)

We're working together
Love comes to whoever wants it
All good things are free
Wave to nobody

We're working together
Love comes to whoever wants it
All good things are free
Wave to nobody

We're working together
Love comes to whoever wants it
All good things are free
Wave to nobody

We're working together
Love comes to whoever wants it
All good things are free
Wave to nobody

We're working together
Love comes to whoever wants it
All good things are free
Wave to nobody

We're working together
Love...
